Flat-rate labor is applied to labor guides. A certain amount of time is involved on replacing a car starter on a certain year, make and model vehicle. If the labor guide dictates it takes 2.3 hours to replace the starter, then the customer pays for the new starter, plus the 2.3 hours of labor to install it.

Automotive Repair Labor Guide | It Still Runs

Most auto repair shops quote labor charges using a “flat rate” manual or computer program that provides the average time it takes an experienced technician to perform a given car repair. That flat-rate time is then multiplied by the shop’s hourly labor rate to reach the total labor charge for the service.

Auto Repair Labor Rates Explained | AAA Automotive

What is the Flat-rate system? Although the FRS is fairly new to the appliance repair scene, many other trades have used a similar system for a long time. Auto mechanics usually have standard “book rates” for certain tasks, rather than charging each customer the actual time (labor) it takes to do a repair. The FRS is pretty straightforward.
