Radar Chart - A Complete Guide | FusionCharts

Radar (or spider) charts can be an effective way to show certain types of data. However, they can also make comparison a little difficult; this blog by Graham Odds details why radar charts aren't always the best choice. Nonetheless, I've seen a few on Twitter lately, and they reminded me of an old Makeover Monday in which ESPN rated 60 sports across 10 different categories, and I thought ...

A Simple Way to Make a Radar Chart - The Data School

An axis for each variable is provided in the spider chart to visualize the stability of the data of any of the desired section. The values of different variables are interlinked by the lines and if these lines are connected together, the hexagonal shape occurs and the data seems like the spider in the middle of the spider chart.
