When making a decision in such a situation, people tend to employ two different decision-making strategies: the availability heuristic and the representativeness heuristic. Remember, a heuristic is a rule-of-thumb mental short-cut that allows people to make decisions and judgments quickly.

The Psychology of Decision-Making Strategies

Research on neurological sources of moral decision-making is in its infancy. It seems safe to assume that future research will lead to refinements in our understanding of the brain systems that produce emotional and rational decisions, enabling investigators to identify a set of sub-systems specialized to mediate different kinds of moral judgments.
